Leukotrienes are important mediators in asthma and other inflammatory diseases. The leukotriene synthesis can be modified by the action of 5-lipoxygenase inhibitors. In this review the synthesis and biological effects of leukotrienes are presented. Furthermore the mechanisms of action of the 5-lipoxygenase inhibitors and the development of their therapeutic potential are described. While much of the progress in understanding of this enzyme and the physiologic action of the leukotrienes has been in the last decade, new possibilities for therapeutic use are still emerging. The design of new 5-lipoxygenase inhibitors is discussed and possibilities for therapeutic use presented.15 Celeb Who Could Never Cut It On The JV Team Some are born great.
