About AutoCAD Full Crack In February 2010, Autodesk announced the release of AutoCAD 2010 with new features for the 2D and 3D drawing environments and 3D PDF/3D Print capabilities. The full product suite includes 2D Drafting and 3D Modeling, 2D presentation, DWG/DXF conversion and AutoCAD Architecture (Architecture, Space and Context) as a new 3D modeling product. The latter now integrates with the Autodesk Revit Building Information Modeling (BIM). AutoCAD is available for Microsoft Windows, Macintosh and Linux operating systems. Autodesk acquired AutoCAD in 1997. AutoCAD software may be used in conjunction with AutoCAD LT. Architecture AutoCAD Architecture is a 3D design tool used to create architectural blueprints. The project can be either conceptual or detailed, using parametric design tools such as Structural and Acoustic, that can also be used to create a structural or acoustic design, respectively. SketchUp is Autodesk's 3D computer graphics application that can be used as a layout tool in Architectural, Engineering, and other AutoCAD applications, as well as a complete design application for 2D and 3D drawing. SketchUp can be used for both concept and detailed design. SketchUp can be used on its own, or in conjunction with AutoCAD Architectural Desktop (AutoCAD Architectural 2008 or AutoCAD Architectural 2012) to provide complete 3D design and architectural solutions. SketchUp, along with other Autodesk software, is available for Linux, Mac, and Windows. Enterprise services AutoCAD's Enterprise services have also been extended to include web-based CAD, for enterprise cloud based CAD and document management services. AutoCAD Enterprise Services is the enterprise solutions suite provided by Autodesk which provides a comprehensive range of capabilities such as online, collaborative, mobile, cloud and collaboration solutions to organizations. AutoCAD Enterprise Services allow organizations to connect the latest CAD technology with business functions. The solution is designed to help engineers, architects and other architects to design and create CAD drawings. AutoCAD Enterprise Services consist of four different solution components: Enterprise Web Enterprise Web is a web-based solution that allows designers and engineers to create and share CAD drawings online.
